Around eight months, babies begin to copy the sounds and intonations of their native language and speak their first words around one year of age. Children who are spoken and read to more are linguistically advanced, although late talkers tend to catch up with early talkers in the absence of other problems. The three circled ones are in the second part of the chapter, on pages KSA 4, : [Thenon-marinemollusca,and2.From: Ammareal Grigny, France. By the s and s, electronic toys, videotaped movies, and computer games, along with the still-burgeoning glut of television programming for children, had deeply altered play patterns; for instance, children tended to stay inside far more than in the past.
