Two important motives for standards-based reform are to inspire all students to perform at high levels and to prevent the self-fulfilling consequences of holding lower expectations for historically low-achieving groups, including many students with disabilities McLaughlin and Shepard. As noted in Chapter 3 nationally representative data are limited regarding how many and to what extent students with disabilities currently participate in the general education curriculum and instruction.

The vast majority of youth with speech impairments 81 percent of that group vi
Second, as one changes the nature of the credentialing process, whether by increasing standards or by requiring minimum competency tests, students must first be adequately prepared to meet the challenges posed by the new credentialing process. Researchers focusing on implementation have identified six key leadership behaviors, discussed below Hord, to support successful implementation of the PTLC. Working collaboratively, teachers develop a common formal plan outlining or Register to save!
