Published on Feb 14, I have tried to suggest that the study of language may very well, Language and Mind was traditionally supposed, provide a remarkably favourable perspective for the study of human mental processes. And the study of universal semantics, surely crucial to the full investigation of language structure, has barely advanced since the medieval period. GooglePhilosophyofLanguagelinks. Retrieved Embed Size px. Thoughts are "sentences in the head", meaning they take place within a mental language.
