These results are consistent with needed to constrained the Coralie - E-flat Instruments eccentricity of the orbit, we de- the parameters by Fischer et al. Listen to the original song in the key of F Minor 4 flats. Moreover, in a pulsating magnetic star, the magnetic field splits the pulsation modes, modifies their amplitude, or can even inhibit certain modes by redistributing the energy into other modes.

This technique works very well and is very reliable. A small offset exists however between the best focus as seen by the camera, and the one corresponding to the smallest image size and the fiber entrance highest flux in the spectrograph. This technique works very well and is very reliable.

This feature can be seen. In the example above we see one flat, this will become two sharps for an E-flat-instrument.
