It uses behavioral techniques and expressive arts and is based on relational therapy. Exposure therapy is recommended as a first-line treatment option when the prominent trauma symptoms are intrusive thoughts, flashbacks, or trauma-related fears, panic, and avoidance.

I see movement from old school behavioral interventions that involved punishment. This series of webcasts educates the news and entertainment media about the best terminology and language to use, as well as how Each person had a different story, but all grieved, and we provided many an opportunity to express it. They will remove themselves from their daily life and check. The popular CBSSE plays a significant role in helping individuals who have been traumatized observe their experiences, increase awareness, and tolerate uncomfortable emotions and cognitions.
