Now the hard work begins. That is to say, we understand social innovation as the intentional change of social practices aimed at the solution of collective problems, through the active participation of a community.

This is a term for a product which requires a high amount of thought by the customer.

The FOB expression originates from the meaning that the buyer is free of liability up to the point that the goods are loaded on board the ship. This panel seeks to bring together papers on the broader shaping of contemporary biomedicine with work on specific new medical technologies, including studies of pharmaceutical and biotechnological innovation. The transference of knowledge and technology among people around the world, and from one generation to the next, is what determines human progress.

Start to be a courageous, action-oriented and persistent believer. First, technical and professional knowledge dates quickly; that means that workers face skill obsolescence unless their knowledge is updated constantly, and it is a special problem with individuals are hired for their specialized knowledge.
